Notes to the Condensed Consolidated Interim Financial Statements

Six Months Ended January 31, 2020 and 2019

(Expressed in Canadian Dollars, Unaudited)

1. Nature of Operations and Going Concern

Bravada Gold Corporation (the "Company" or "BVA") is an exploration stage company incorporated under the laws of British Columbia on September 4, 2009. On January 7, 2011, the Company and Fortune River Resource Corp. entered into an amalgamation agreement and formed a new entity under the same name, Bravada Gold Corporation. The Company's principal business activities include the acquisition, exploration, and development of natural resource properties for enhancement of value and disposition pursuant to sales agreements or development by way of third party option and/or joint venture agreements. The Company's registered office is 1710 - 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2L3.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that any of the Company's current or future exploration programs will result in profitable mining operations. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain financing to complete their exploration and development, and establish future profitable operations, or realize proceeds from their sale. The carrying value of the Company's mineral properties does not reflect present or future value.

These condensed consolidated interim financial statements were prepared on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at January 31, 2020, the Company had a working capital deficiency of \$780,283 (July 31, 2019 - \$468,611). The Company incurred a net loss of \$383,454 for the six months ended January 31, 2020 (2019 - \$472,936) and had an accumulated deficit of \$23,648,007 as at January 31, 2020 (July 31, 2019 - \$\$23,268,323).

As at January 31, 2020, the Company does not have sufficient working capital to meet its administrative overheads and continue its exploration programs. The Company has relied mainly upon the issuance of share capital and short-term debt to finance its activities. Future capital requirements will depend on many factors including the Company's ability to execute its business plan. In order to finance future activities the Company will be required to issue further share capital through private placements and the exercise of options and warrants or obtain additional short-term debt. There can be no assurance that such financing will be available to the Company and, therefore, a material uncertainty exists which casts significant doubt over the Company's ability to continue as a going concern.

These condensed consolidated interim financial statements do not include the adjustments to assets and liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustment could be material.

2. Basis of Preparation

These condensed consolidated interim financial statements were prepared in accordance with International Accounting Standard 34: *Interim Financial Reporting* using historical cost, except for cash flow information and financial instruments measured at fair value, and incorporate the financial statements of the Company and of the entities wholly-controlled by the Company: Bravo Alaska Inc., incorporated in Alaska, USA, and Rio Fortuna Exploration (U.S.), Inc., incorporated in Nevada, USA.

(Expressed in Canadian Dollars, Unaudited)

2. Basis of Preparation, continued

All intercompany transactions and balances have been eliminated upon consolidation. The functional and presentation currency of the Company and its subsidiaries is the Canadian dollar.

These condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's audited annual consolidated financial statements for the year ended July 31, 2019.

These condensed consolidated interim financial statements were approved by the Board of Directors for issue on March 31, 2020.

3. Summary of Significant Accounting Policies

The same accounting policies are used in the preparation of these condensed consolidated interim financial statements as for the most recent audited annual consolidated financial statements and reflect all the adjustments necessary for fair presentation in accordance with International Financial Reporting Standards of the results for the interim periods presented.

4. Financial Instruments

The Company's financial instruments include cash, other receivables and reclamation bonds which are classified as financial assets measured at amortized cost, marketable securities which are classified as financial assets measured at fair value through profit or loss and accounts payable and accrued liabilities and due to related parties which are classified as financial liabilities measured at amortized cost.

The carrying values of accounts payable and accrued liabilities and due to related parties approximate their fair values due to the short period to maturity. Reclamation bonds are non-interest-bearing, have no maturity date and carrying values approximate fair value.

5. Marketable Securities

The Company owns 50,000 common shares of a privately held company, Terra Rossa Gold Ltd. ("Terra Rossa") with a fair value of \$1 (July 31, 2019 - \$1) as measured in accordance with Level 3 of the fair value hierarchy.

6. Reclamation Bonds

As at January 31, 2020, amounts on deposit were \$129,159 (US\$97,685) (July 31, 2019 - \$173,951 (US\$132,363)).

7. Mineral Properties

Management continues to consider the ability of the Company to raise sufficient financing to be an indicator of impairment and therefore recorded an impairment provision against all of its properties in accordance with Level 3 of the fair value hierarchy.
